

The European Youth Health Initiative website *Be Healthy – Be Yourself* asks young Europeans to do projects on health issues. You have decided to do a project about the effects of electronic gadget use and have collected data. Report your findings to www.healthyyouthprojects.eu. They will publish a report from each country.

In your **report** you should:

- describe how the project was carried out
- analyse the project findings
- encourage readers to do similar health projects

Divide your report into **sections** and give them **headings**. Write around **400 words**.

Notes (these will not be marked)
